Note 1: Acceptance fee for P2PE Solutions includes listing for 24 months by PCI SSC. Interim Assessment (Healthcheck) and Attestation of Validation must be submitted 12 months after each Acceptance.

Note 2: Acceptance for P2PE Validated Applications expires three years past the effective date of a subsequent update of the P2PE Standard. The objective is a three -year minimum approval life expectancy, barring a severe threat that may require immediate changes. PA-DSS and P2PE are distinct programs with different requirements; validation against one of these standards does not provide any automatic validation against the other standard. As such, fees for each program will be assessed separately.
